

Twice Exceptional Students

Definition, Characteristics, Strengths, and Identification

January 8th and February 19th, 2025 on Zoom from 4:30 - 5:30

Twice Exceptional (2e) students are those who are identified as gifted and who are on an IEP or 504 plan. These two sessions will be hosted by the CDE Twice Exceptional Team. The consultants will focus on what it means to be 2e: definition, characteristics, strengths, and how to identify and serve these students.

Register at ecbooces.org. Stipends will be provided for ECBOCES educators who attend both sessions for the entire hour.
